

ACHA Webinars Presents:

Post Mustard and Senning in the Adult Congenital Heart Patient

Tuesday, January 17, 2012, 7 p.m. - 8 p.m. EST

**Presenter:
Gary D. Webb, MD**

About the Webinar

Are you an adult with complete Transposition of the Great Arteries (TGA) who has had a Senning or Mustard procedure? If so, you will want to attend this webinar. Dr. Gary Webb, noted ACHD cardiologist, will discuss the four main issues that might show up after these procedures. He will also tell you why close observation by an ACHD expert is important and share steps you can take to lead as productive a life as possible.

About the Speaker

Gary Webb, MD, directs the ACHD program at Cincinnati Children's Hospital. He previously worked in Toronto, where he directed the world's oldest and largest ACHD program. Dr. Webb has had the pleasure of working with ACHA on many initiatives, and served as chair of the Medical Advisory Board from 2007-2011.

About the Adult Congenital Heart Association

The Adult Congenital Heart Association (ACHA) is a nonprofit organization that seeks to improve the quality of life and extend the lives of congenital heart defect survivors. Through education, outreach, advocacy and promotion of research, ACHA serves and supports the more than 1.8 million individuals with congenital heart defects, their families, and the medical community. If you would like to find out more about our programming, visit our website, www.achaheart.org. To support ACHA's mission to improve and prolong the lives of heart defect survivors, you can make a donation on our website.

**This webinar was made possible in part by an unrestricted
educational grant from Actelion.**
