

Adult Congenital Heart Association

Webinars Presents:

D-TGA Chat, Part 2: Life After the Mustard or Senning Procedure

Wednesday, February 27, 2019, 7 p.m. – 8 p.m. EST

Presenter: Marlon Rosenbaum, MD

About the Webinar

Were you born with D-Transposition of the Great Arteries (D-TGA)? Did you have either a Mustard or Senning procedure? If so, you should mark your calendar and tune in to the webinar: D-TGA Chat, Part 2. Dr. Marlon Rosenbaum will review the anatomy and clinical manifestations of D-TGA. He will also talk about different imaging techniques and review the challenges of pregnancy. Register today to learn all about all of this and how to lead a productive and full life.

About the Presenter

Marlon Rosenbaum, MD, is the Director of the Schneeweiss Adult Congenital Heart Program at the Columbia University Medical Center and an Associate Professor of Medicine and Pediatrics at the College of Physicians and Surgeons of Columbia University. Dr. Rosenbaum is the co-author of *Congenital Heart Disease in the Adult*. He has a large ACHD practice, lectures extensively on ACHD and is responsible for cardiology fellowship training in ACHD. His current research projects include outcomes in patients with a systemic right ventricle, timing of pulmonary valve replacement in patients with pulmonary regurgitation, liver abnormalities in the Fontan patient, and outcome of adults with a failing Fontan. Dr. Rosenbaum currently serves on the ACHA Medical Advisory Board and is a Fellow of the American College of Cardiology and a member of the American Heart Association and International Society for Adult Congenital Heart Disease.

About the Adult Congenital Heart Association

The Adult Congenital Heart Association (ACHA) is a national not-for-profit organization dedicated to improving the quality of life and extending the lives of adults with congenital heart disease (CHD). ACHA serves and supports the more than one million adults with CHD, their families and the medical community—working with them to address the unmet needs of the long-term survivors of congenital heart defects through education, outreach, advocacy, and promotion of ACHD research. For more information about ACHA, contact (888) 921-ACHA or visit www.achaheart.org.

This webinar is made possible in part by sponsorship support provided by Actelion Pharmaceuticals US, Inc. and Gilead Sciences, Inc.
