

Why We Walk

Adult Congenital Heart ❤️ **Association**

Join us as we walk for the 1 in 100 children and adults impacted by congenital heart disease (CHD) across the country. The Adult Congenital Heart Association (ACHA) is devoted to supporting the full lifespan of the millions of people impacted by CHD. In 2019, we will host walks in 14 communities to raise money for outreach, education, research and more.

Our events were created to empower all of those who were born with a heart defect, their loved ones, and the medical community that cares for them. We're here to empower adults to take an active role in their cardiac care, to educate parents on the lifelong specialized care their young child will need in the future, and to support young adults through the transition to adult CHD care.

Your CHD is your story, and we hope you will share it at an ACHA Walk for 1 in 100.

Register today at www.walk1in100.org.
