

Adult Congenital Heart Association

Webinars Presents:

Pulmonary Arterial Hypertension Update

Wednesday, June 19, 2019, 7 p.m. – 8 p.m. EDT

Presenter: Ian Harris, MD

About the Webinar

Do you know that pulmonary vascular disease is a major cause of illness in patients with congenital heart disease (CHD)? Recent advances have begun to tell us more about the way that pulmonary hypertension (PH) develops. Are you aware that the development of new drugs to treat PH in CHD has improved the outlook of patients? To learn more about pulmonary hypertension in CHD from Dr. Ian Harris, noted ACHD cardiologist, sign up for this webinar. You don't want to miss it.

About the Presenter

Dr. Ian Harris earned his medical degree from UCSF School of Medicine and completed his residency in internal medicine at Barnes-Jewish Hospital. Dr. Harris returned to UCSF Medical Center to complete his cardiology and adult congenital cardiology fellowships, as well as a research fellowship in developmental biology at the UCSF Cardiovascular Research Institute. He is board certified in both internal medicine and cardiovascular disease and is the Director of the ACHD Service at UCSF. He is also a member of the ACHA Medical Advisory Board.

About the Adult Congenital Heart Association

The Adult Congenital Heart Association (ACHA) is a national not-for-profit organization dedicated to improving the quality of life and extending the lives of adults with congenital heart disease (CHD). ACHA serves and supports the more than one million adults with CHD, their families and the medical community—working with them to address the unmet needs of the long-term survivors of congenital heart defects through education, outreach, advocacy, and promotion of ACHD research. For more information about ACHA, contact (888) 921-ACHA or visit www.achaheart.org.

Sponsorship support provided by Actelion Pharmaceuticals US, Inc., and Gilead Sciences.
