Webinars Presents:

Sex, Drugs and Rock and Roll: Taboo Subjects in Adult Congenital Heart Disease

Wednesday, April 15, 2020, 7 p.m. – 8 p.m. EDT
Presenter: Adam Lubert, MD

About the Webinar
Have you ever wondered how different lifestyle choices may impact your congenital heart disease and long-term health? What is the impact of smoking on your heart? Is vaping a safe alternative? Is it OK to get a tattoo? You’ll want to attend this webinar to learn about these topics and more during this action-packed session.

About the Presenter
Adam M. Lubert, MD, is a board-certified adult congenital cardiologist practicing at Cincinnati Children's Hospital. He believes that “heart healthy” living is the most important aspect of improving the lives of patients with congenital heart disease.

About the Adult Congenital Heart Association
The Adult Congenital Heart Association (ACHA) is a national not-for-profit organization dedicated to improving the quality of life and extending the lives of adults with congenital heart disease (CHD). ACHA serves and supports the more than one million adults with CHD, their families and the medical community—working with them to address the unmet needs of the long-term survivors of congenital heart defects through education, outreach, advocacy, and promotion of ACHD research. For more information about ACHA, contact (888) 921-ACHA or visit www.achaheart.org.
