Webinars Presents:

Aging with CHD: Health in the ACHD Patient Over 40

Wednesday, June 24, 2020, 7 p.m. – 8 p.m. EDT

Presenter: Tabitha Moe, MD

About the Webinar
With improved medical care, adults with congenital heart disease (CHD) are living longer. This is great, yet brings with it increased chances of developing other cardiovascular diseases, as well as other diseases common in the elderly. Do you know what some of these health conditions are? Are you susceptible to getting them? Do you know what you can do to lessen your chances of developing them? As you age, your care warrants close communication between your ACHD cardiologist and your primary care provider. Register for this webinar today. Dr. Tabitha Moe, noted ACHD cardiologist, will discuss how to take care of your heart as you age.

About the Presenter
Dr. Moe attended medical school at the University of Missouri in Kansas City (UMKC). She then completed an Internal Medicine Residency and an Internal Medicine Chief Resident year, also at UMKC. She returned to Arizona for Cardiology Fellowship and served as Chief Cardiology Fellow at Banner-Good Samaritan Medical Center and did her ACHD training at Phoenix Children’s. She is board certified in ACHD, IM and IM Cardiology.

Dr. Moe’s primary interests include the care and transition of adolescents and adults with congenital heart disease. She additionally focuses on women with cardiovascular diseases and pregnancy in cardiovascular disease, as well as pulmonary hypertension. She is active in congenital heart disease research. Dr. Moe is currently a cardiologist at Arizona Cardiology Group with a primary focus in Adult Congenital Heart Disease. She is an ACHA medical advisory board member.

About the Adult Congenital Heart Association
The Adult Congenital Heart Association (ACHA) is a national not-for-profit organization dedicated to improving the quality of life and extending the lives of adults with congenital heart disease (CHD). ACHA serves and supports the more than one million adults with CHD, their families and the medical community—working with them to address the unmet needs of the long-term survivors of congenital heart defects through education, outreach, advocacy, and promotion of ACHD research. For more information about ACHA, contact (888) 921-ACHA or visit www.achaheart.org.
