Webinars Presents:

Diagnosed as An Adult: “You Mean I Was Born with CHD?”

Wednesday, January 27, 2021, 7 p.m. – 8 p.m. EST

Presenter: Peter Ermis, MD

About the Webinar

Did you know about 10% of people born with a congenital heart defect are not diagnosed until they are adults? Are you one of these people or do you know someone who is? If you want to find out what may be unique to this particular group of adult congenital heart disease (CHD) patients, register today. You’ll learn what is important to know if you or someone you know is an adult diagnosed with CHD.

About the Presenter

Dr. Peter Ermis is the Medical Director for the Adult Congenital Heart Program and Head of Adult Medicine at Texas Children’s Hospital and Baylor College of Medicine in Houston, Texas. He has published on clinical outcomes in adult congenital heart disease, including aspects of imaging, interventional procedures, advanced heart failure, and electrophysiology. He is a member of the ACHA Medical Advisory Board.

About the Adult Congenital Heart Association

The Adult Congenital Heart Association (ACHA) is a national not-for-profit organization dedicated to improving the quality of life and extending the lives of adults with congenital heart disease (CHD). ACHA serves and supports the more than one million adults with CHD, their families and the medical community—working with them to address the unmet needs of the long-term survivors of congenital heart defects through education, outreach, advocacy, and promotion of ACHD research. For more information about ACHA, contact (888) 921-ACHA or visit www.achaheart.org.
