

Outstanding Opportunity for Director of Adult Congenital Heart Disease in Miami

Nicklaus Children's Hospital, a 309-bed freestanding children's hospital, and Nicklaus Children's Pediatric Specialists, the physician multispecialty group practice of Nicklaus Children's Health System, have an exceptional opportunity for an adult congenital heart disease specialist to direct the Adult Congenital Heart Disease (ACHD) Program.

The Nicklaus Children's Hospital Heart Institute is a world leader in cardiology and cardiovascular surgery for the care of patients with congenital heart disease. Nicklaus Children's Hospital is expanding its services to the growing number of adult congenital heart disease patients in partnership with top-ranked adult specialists in the region. Interested candidates for the ACHD directorship should have completed a residency in either pediatrics, internal medicine or a combined med/peds program, followed by a three-year fellowship in either pediatric or adult cardiology. Either completion of a two-year ACGME accredited ACHD fellowship or a career demonstrating clinical and academic leadership in the field of ACHD is required. The candidate should be board certified in ACHD.

Nicklaus Children's Hospital is an affiliate of the Florida International University Herbert Wertheim College of Medicine. Our state-of-the-art Advanced Care Pavilion houses a 34-bed cardiac in-patient unit with an adjustable acuity model that allows all rooms to accommodate critically ill patients with heart disease. The Heart Institute offers a full range of services, including the management of patients following congenital heart surgery, interventional catheterization and invasive electrophysiology. Our cardiac surgical program, led by Dr. Redmond Burke, is one of the most transparent in the world. It remains the only cardiovascular surgical program to offer real-time outcomes reporting (<https://rto.nicklauschildrens.org>).

Competitive compensation and benefits package. Qualified candidates please contact:
