Job Summary

The Division of Pediatric Cardiology at the University of Utah School of Medicine has an immediate opening for a Nurse Practitioner to provide primary care and treatment for adult patients with congenital heart disease (CHD) in the outpatient clinic and inpatient setting. This position will also assist in the transition of adolescent CHD patients from a pediatric model of care to an adult model of care. If you are interested in being part of a department whose mission is to improve the lives of adults with congenital heart disease, we invite you to consider the opportunity.

The University of Utah offers a comprehensive benefits package with excellent health care choices, retirement plans and paid leave time. Current benefit information is available at www.hr.utah.edu/benefits. Mutual respect and appreciation are highly valued within the Department of Pediatrics.

This position is considered Category I: Mandatory and required on campus or health care facilities to support on-site operations. Employees hired into this category will be required to be physically located at the Primary Children's Eccles Outpatient Services building if they are healthy and without COVID-19 symptoms.

Qualifications

Required

- Licensure to practice as a Nurse Practitioner in the State of Utah.

Preferred

- Certification in ACLS/BLS/NRP/ATLS may be required by your department or by privileging criteria.
- Utah State prescriptive privileges.
- Licensure is obtained by completing a Master's degree in Nursing or equivalency (the only equivalency to the Master's degree is current licensure as a Nurse Practitioner) and a National Certification which requires the successful completion of a nationally accredited examination.
- UHPPM 1-56 requires that newly hired non-physician providers apply for credentialing and privileging at the time of hire.

This position is patient-sensitive and must fulfill all associated requirements. We protect our patients, coworkers and community by requiring all patient-sensitive employees to be immunized according to CDC standards and hospital policy. Limited exemptions may be made for documented medical contraindications or religious beliefs that object to vaccinations.

Applicants must demonstrate the potential ability to perform the essential functions of the job as outlined in the position description.

Disclaimer

This job description has been designed to indicate the general nature and level of work performed by employees within this classification. It is not designed to contain or be interpreted as a comprehensive inventory of all duties, responsibilities and qualifications required of employees assigned to the job.

Essential Functions

Direct Patient Care: (80%)

1. Assesses the physical condition of adult congenital heart disease patients by performing physical examinations and obtaining medical histories. The role may include caring for patients of any age with diverse cardiovascular ailments.
2. Formulates the medical plan and prognosis based on patient's condition.
3. Consults with physician(s) regarding patient health care plans and treatment.
4. Orders, interprets, and evaluates diagnostic tests (including echocardiograms, chest X-rays and EKGs) to identify and assess the patient's clinical problems and health care needs.
5. Initiates and/or recommends medical drug therapies or other forms of related therapeutic treatment and procedures in accordance with approved protocols/policy.
6. Counsels patients, families and significant others about health and illness, and promotes health maintenance.
7. Evaluates, plans, implements, and re-evaluates the care of individuals requiring emergency measures.
8. Assists in the transition of adolescent CHD patients from a pediatric model of care to an adult model of care.
9. Facilitates patient transition within and between health care settings.
10. Collaborates with multidisciplinary team members by making appropriate referrals.
11. Functions in an inpatient center as a member of the ACHD inpatient care team.
12. Assists patients with the post-procedure rehabilitation and follow-up process.
13. Plans for transition visit by reviewing past medical records and preparing transition material specifically tailored to each patient.

Administrative: (20%)

1. Complies with medical records policies regarding the complete and accurate documentation of patient care. Initiates and maintains required records and legal documents.
2. Screens clinics to monitor for patients meeting transition criteria.
3. Assists with creating and maintaining an ACHD program dashboard.
4. Participates in quality improvement activities.

5. Manages REDcap database and monitors patient progression along transition activities. Contacts patients periodically who have set goals that require follow up.
6. Assists in planning of patient symposiums.
7. Creates and manages transition curriculum.
8. Works with Information Systems to incorporate transition activities into Electronic Medical Record.
9. Works with public relations departments on promotion of Adult Congenital Heart Disease program.
10. Prepares manuscripts for publication on transition data and experience.

Employee must be able to meet the following requirements with or without an accommodation.

- This position involves intensive work that may exert up to 100 pounds and may consistently require lifting, carrying, pushing, pulling or otherwise moving objects, such as medical equipment, or patients while providing medical care. Workers in this position may be exposed to infectious diseases and may be required to function around prisoners and behavioral health patients.

Preferences

Previous experience in pediatric cardiology, adult cardiology and/or adult congenital cardiology is preferred.

Applicants will be screened according to department preferences.

Work Schedule

Full-time, 40 hours per week. Anticipated schedule is Monday – Friday, 8:00 am to 4:30 pm. May be required to take call coverage in addition to an ACHD provider; may include occasional nights and weekends

Additional Information

The University of Utah values candidates who have experience working in settings with students from diverse backgrounds and possess a strong commitment to improving access to higher education for historically underrepresented students.

Individuals from historically underrepresented groups, such as minorities, women, qualified persons with disabilities and protected veterans are encouraged to apply. Veterans' preference is extended to qualified applicants, upon request and consistent with University policy and Utah state law. Upon request, reasonable accommodations in the application process will be provided to individuals with disabilities.

The University of Utah is an Affirmative Action/Equal Opportunity employer and does not discriminate based upon race, ethnicity, color, religion, national origin, age, disability, sex, sexual orientation, gender, gender identity, gender expression, pregnancy, pregnancy-related conditions, genetic information, or protected veteran's status. The University does not discriminate on the basis of sex in the education program or activity that it operates, as required by Title IX and 34 CFR part 106. The requirement not to discriminate in education programs or activities extends to admission and employment. Inquiries about

the application of Title IX and its regulations may be referred to the Title IX Coordinator, to the Department of Education, Office for Civil Rights, or both.

To request a reasonable accommodation for a disability or if you or someone you know has experienced discrimination or sexual misconduct including sexual harassment, you may contact the Director/Title IX Coordinator in the Office of Equal Opportunity and Affirmative Action:

Director/ Title IX Coordinator
Office of Equal Opportunity and Affirmative Action (OEO/AA)
135 Park Building
Salt Lake City, UT 84112
801-581-8365
