Liver Disease and Fontan Circulation

Wednesday, September 14, 2022
7 p.m. – 8 p.m. EDT
Presenter: Yuli Kim, MD

About the Webinar
Have you wondered what the liver has to do with your heart condition? And why your cardiologist cares so much about this organ? The Fontan circulation is now recognized as a risk factor for liver disease. However, much is still not known. This webinar will review what is currently known about liver disease in the Fontan and what can be done to optimize liver health. Register today to learn more.

About the Presenter
Yuli Kim, MD, is a member of the ACHA Medical Advisory Board and served on the planning committee of the 9th ACHA National Conference. She is the medical director of the Philadelphia Adult Congenital Heart Center, a joint program of the Children’s Hospital of Philadelphia and the Hospital of the University of Pennsylvania. She completed a residency in Internal Medicine at Johns Hopkins Hospital and fellowship in Cardiovascular Medicine at the Cleveland Clinic before subspecialty training in Adult Congenital Heart Disease with the Boston Adult Congenital Heart program. She has been at the Philadelphia Adult Congenital Heart Center since 2010.

About the Adult Congenital Heart Association
The Adult Congenital Heart Association (ACHA) is a national not-for-profit organization dedicated to supporting individuals and families living with congenital heart disease and advancing the care and treatment available to our community. ACHA empowers the more than nearly 2 million adults with CHD, their families, and the medical community by advancing access to resources and specialized care that improve patient-centered outcomes. For more information about ACHA, contact (888) 921-ACHA or visit www.achaheart.org.
