

What's New in Pulmonary Arterial Hypertension (PAH)?

Wednesday, February 15, 2023

7 p.m. – 8 p.m. EST

Presenter: Saurabh Rajpal, MBBS, MD

About the Webinar

Do you know that pulmonary arterial hypertension (PAH) is common in certain adult patients with congenital heart disease (CHD)? Without proper diagnosis and treatment, lifestyle limitations and poor prognosis can occur. However, with greater awareness, imaging techniques and newer drugs, early detection and treatment of PAH are now possible. The impact of these developments in diagnosing and treating PAH will be discussed in this webinar. You do not want to miss it. To learn more, register today.

About the Presenter:

Dr. Saurabh Rajpal is a member of the ACHA Medical Advisory Board. He is board certified in adult congenital heart disease, echocardiography and cardiac MRI and is an Associate Professor of Internal Medicine at The Ohio State University and Nationwide Children's Hospital. Dr. Rajpal's research interests include the development of imaging biomarkers in adult congenital heart disease, pulmonary hypertension, and young competitive athletes. He lives with his wife and three school-age boys in New Albany, Ohio, and enjoys running and hiking.

About the Adult Congenital Heart Association

The Adult Congenital Heart Association (ACHA) is a national not-for-profit organization dedicated to **supporting individuals and families living with congenital heart disease and advancing the care and treatment available to our community.** ACHA empowers the more than nearly 2 million adults with CHD, their families, and the medical community by advancing access to resources and specialized care that improve patient-centered outcomes. For more information about ACHA, contact (888) 921-ACHA or visit www.achaheart.org.
