

Well-established, comprehensive pediatric cardiology practice seeks a BC/BE adult congenital cardiologist to serve as ACHD program director

- Pediatrix-Cardiology of San Antonio is the largest and most sub-specialized pediatric cardiology practice in San Antonio with 10 board certified pediatric cardiologists, including 1 other adult congenital physician, and 3 advanced practice providers
- Potential candidates should be board certified/board eligible in adult congenital heart disease or have significant experience in caring for this specialized patient population.
- Inpatient consult and call responsibilities shared with 7 other cardiologists.
- Opportunity for leadership within the adult congenital service line and inpatient congenital heart program.
- Applicants finishing fellowship to those with several years of adult congenital experience will be considered.

San Antonio is the 7th largest city in the country and one of the fastest-growing areas in the United States. It is a very welcoming city for families and individuals alike. With 300 days of sunshine a year, the area affords plenty of opportunities to take in the outdoors year-round. We are 30 minutes from the beautiful Texas Hill Country and 2 hours from the Texas Coast. San Antonio has well-established large natural parks and greenways throughout the city, with miles of walking, biking and hiking opportunities. Further outdoor activities lie just beyond the city corridor. The city of San Antonio is rich in educational opportunities, vast in the arts and cultural heritage, and offers a large variety of public, charter and private schools.

To be considered, you can formally apply on our Pediatrix Careers page using the link below. You may also send a copy of your CV directly to Caroline.Martell@Pediatrix.com
