

Adult Congenital Heart Disease Cardiologist | Internal Medicine F64090

Mission or Goal of Unit: At VCU Health Pauley Heart Center, our world-class team takes your heart health personally. Building on our history of innovation in patient care, scientific discovery, diversity, and collaboration we improve cardiovascular care for all, while continuously training the next generation of providers.

Chief Purpose of this position: The department of Internal Medicine, Division of Cardiology is seeking a candidate to provide Adult Congenital Heart Disease clinical care along with supporting the academic mission in research and education. The ACHD program completed the accreditation site visit and institutionally has the support for strong a program. The incumbent will join an established group of physicians and surgeons in one of the top Heart Centers in the United States.

Position Responsibilities: Providing comprehensive care in the inpatient and outpatient setting for adults with congenital heart disease regardless of severity of illness. Collaborating with a multidisciplinary team of experts, including pediatric cardiologist, congenital and adult cardiac surgeons, interventional cardiologists, electrophysiologists, advanced heart failure and transplant specialists, hepatologists, social workers, nurses, and others. Participate in outreach clinics. Participate in research and education activities related to ACHD, such as publishing papers, presenting at conferences, teaching fellows and residents, and mentoring students. Assist in the development of an ACHD fellowship.

Required Qualifications:

- The incumbent must be a BC Cardiologist and BC/BE in Adult Congenital Heart Disease.
- Candidate must be clinically oriented and possess sufficient research and teaching experience to be eligible for an academic appointment.
- Candidate must be able to communicate effectively and work with a large multi-disciplinary program.
- Candidate will be expected to participate in Teaching and Fellowship programs.
- The incumbent must be eligible for medical licensure in the state of Virginia.

Demonstrated experience working in and fostering a diverse faculty, staff, and student environment or commitment to do so as faculty member of VCU. Virginia Commonwealth University is an equal opportunity/affirmative action employer. Women, minorities, and persons with disabilities are encouraged to apply.

As a preeminent national, urban, public research university and academic health center, Virginia Commonwealth University is committed to organizational diversity, equity and inclusion – an environment where all can thrive in their pursuit of excellence.

Applicants are requested to submit a Statement of Contributions to Diversity, Equity, and Inclusion (typically between 150-300 words) providing your career aspirations and contributions toward promoting diversity, equity, and inclusion. Through this statement,

you can share how your lived experiences; and past, present, and future academic and professional activities have or will contribute to VCU's mission of promoting equity and inclusion.

Examples include working with others to further the goals of equity and inclusion; leading in any capacity that tangibly promotes an environment where diversity is welcomed, fostered, and celebrated; creative activity, research and scholarship that promotes equity and parity; teaching and mentoring students, and/or engaging with faculty and/or staff from traditionally underrepresented groups to create a positive and successful organizational experience.
