

Diagnosed with CHD As an Adult: What Do You Mean I Was Born With It?

**Wednesday, September 11, 2024
7 p.m. – 8 p.m. EDT**

Presenter: Yuli Kim, MD

About the Webinar:

Many adults with congenital heart disease have known about their heart condition since childhood. Some may only learn about it as an adult. Are you one of these people in the second group? If you are, you do not want to miss this webinar. The impact of finding out you have a heart condition later in life can be profound. This webinar will introduce examples of heart defects that are diagnosed in adulthood. What one could expect when given this diagnosis will also be discussed.

About the Presenter:

Yuli Kim, MD, is Vice Chair of the ACHA Medical Advisory Board and Co-Chair of the Patient/Family Committee. She is a board certified ACHD cardiologist and is the medical director of the Philadelphia Adult Congenital Heart Center, a joint program of the Children's Hospital of Philadelphia and the Hospital of the University of Pennsylvania. She completed a residency in Internal Medicine at Johns Hopkins Hospital and fellowship in Cardiovascular Medicine at the Cleveland Clinic before subspecialty training in Adult Congenital Heart Disease with the Boston Adult Congenital Heart program.

About the Adult Congenital Heart Association

The Adult Congenital Heart Association (ACHA) is a national not-for-profit organization dedicated to **supporting individuals and families living with congenital heart disease and advancing the care and treatment available to our community.** ACHA empowers the more than nearly 2 million adults with CHD, their families, and the medical community by advancing access to resources and specialized care that improve patient-centered outcomes. For more information about ACHA, contact (888) 921-ACHA or visit www.achaheart.org.
